### What Participants are Saying:

"I found great value in everything that was presented today. The information content as well as your delivery was nothing short of excellent. It is always beneficial to receive another perspective on employment search strategies, as well as listen to some that may have been covered earlier at Lee, Hecht, Harrison [an outplacement firm] but were not acted upon at that early stage of the unemployment process."

"It was a pleasure meeting you and I found your workshop to be quite informative and useful for job hunters like myself. You are doing a very good service for the community. Please keep it up."

"It was nice to meet you last night at the Barrington Career Center. I thought the materials you presented were very informative. I know I will be able to use it moving forward."

"Your workshop and your e-zines are wonderful sources of information. I have incorporated many of your ideas and suggestions into preparing résumés currently, and I want to make sure to continue to receive your e-zine after I leave ManTraCon."

"Thank you for Thursday's presentation at the Career Resource Center. I picked up a lot of very helpful tips. And I love your monthly motivational e-zine."

"You have embarked on an obvious journey of helping people. I can relate to our cause [as jobseekers]. I would love to share my lessons learned with you, so you can share with your audience, if you will accept it. When is your next group gathering? I would like to meet with you again."

"I feel very privileged to be able to attend your seminar. It was quite informative and well orchestrated."

"It was a great seminar. I've learned a lot from it. Thank you very much."
