What Participants are Saying:

"You were a big hit [Overcoming Negative Self-Talk at HNG]. A number of people came up to me after the meeting and indicated how much they enjoyed your talk, and how much it will help them... You were a big hit again [Top Résumé & Cover Letter Writing Tips from a Pro]; it was a great talk and there were good questions asked. The handout was a big help, especially with the sample résumés and cover letters... It was so nice to see you again [Network Your Way into the Hidden Job Market] and as always you were a big hit. Your handout was very helpful, and a couple of people told me this after the meeting. I hope we can do this again 4 - 6 months from now."

"Thank you for taking the time to share your "How to Turn Interviews from Interrogations into Conversations" presentation at the Acton Networkers Group meeting on Friday, 03/30/2012, at St. Matthews in Acton. I picked up some great job interview secrets!"

"I found great value in everything that was presented today. The information content as well as your delivery was nothing short of excellent. It is always beneficial to receive another perspective on employment search strategies, as well as listen to some that may have been covered earlier at LHH [outplacement firm] but were not acted upon at that early stage of the unemployment process."

"It was a pleasure meeting you and I found your workshop to be quite informative and useful for job hunters like myself. You are doing a very good service for the community. Please keep it up."

"It was nice to meet you last night at the Barrington Career Center. I thought the materials you presented were very informative. I know I will be able to use it moving forward."

"Your workshop at ManTraCon was a wonderful source of information. I've incorporated many of your ideas and suggestions into preparing résumés for our jobseekers."

"Thank you for Thursday's presentation at the Career Resource Center. I picked up a lot of very helpful tips."

"I feel very privileged to be able to attend your seminar. It was quite informative and well orchestrated."
